

Three-Minute Gardener

These informative and entertaining segments provide essential tips for gardening and composting, and answer many growers' questions.

WPSU's home and gardening segments inform viewers about such topics as growing giant tomatoes, cultivating blueberries and other native plants, as well as composting, and much more.

The short, instructional video clips are available statewide in Pennsylvania, through Penn State ON DEMAND, to Comcast Digital Cable customers. New segments are added on a weekly basis.

Hosts for the segments include master gardeners, professors in the College of Agricultural Sciences, and other Penn State experts.

To view programs, Comcast Digital Cable customers can tune to Channel 1 on their Digital Cable lineup or press the ON DEMAND button on their remote control, then click on the "Get Local" section ("Your Town" in the Pittsburgh region) to find the Penn State ON DEMAND category.

Any programs available on Penn State ON DEMAND will also be available online. For those outside the Comcast service area, programs are available through Penn State's video portal at www.live.psu.edu/vod.

Discover easy tips for enjoying life's simple pleasures

- From butterfly gardens, to apple varieties, to forcing spring bulbs, Penn State ON DEMAND offers a variety of home and gardening segments.
- The "anytime" service is available to consumers day and night, and can be watched like a DVD, with functionality including pause, fast forward, and rewind.
